

# APTA Health Systems Council

We are looking for you!

## Who We Are

**The APTA Health Systems Council** is for APTA members who practice in health systems, which typically are organizations that consist of an acute care hospital and a combination of other post-acute care facilities. The organizations may offer care in a variety of integrated clinical settings, such as acute care, inpatient rehabilitation, home care, skilled nursing facilities, and outpatient clinics.

## Purpose

The purpose of the council is to network with other health system leaders to improve the health and wellness of society by advancing the practice of physical therapy and promoting scholarship and research through:

- Greater communication and engagement between health systems, APTA members and components, and the APTA Board of Directors, and staff.
- Influencing the development of innovative models of care such as collaboration on improved methods of measuring outcomes, improving coordination across the continuum of care, and promoting the value of physical therapists in health care systems.
- Development and adoption of best practices by health systems.

## Get Involved

- **Join the council.** APTA members who practice in a health system.
- **Participate in the APTA Hub community.** Be part of the ongoing conversation in the [council's community on the APTA Hub](#).
- **Attend our webinars.** The APTA Health Systems Council holds free webinars for interested participants. Go to the [resources section](#) of the council's community on the APTA Hub to download the current webinar schedule and listen to the recorded offerings.

## Benefits of Joining the Health Systems Council

**Membership is free** for APTA members. In the Health Systems Council, you are never alone. You have an incredible network of professionals and leaders to support you. The council's online community offers a forum for sharing ideas, working together to solve problems, and developing best practices. The council has subcommittees on webinars and member engagement. The group offers multiple free educational opportunities throughout the year and on-demand access to previous webinars. Joining the Health Systems Council provides a great opportunity to collaborate, learn, and lead!
