

## **Brain Injury Association of America – Maine**

The Brain Injury Association of America – Maine Chapter (BIAA-ME) works to increase awareness of brain injury, provide information, resources, and support for individuals who have sustained brain injuries and their families, and advocate for prevention and improved funding and services across the state of Maine.

Our Maine Brain Injury Information Center can be reached at 800-444-6443. Our resource facilitation services are provided free of charge, and anyone can call: survivors, family/caregivers, professionals, etc., for assistance with Maine brain injury information, resources, services, and supports.

Our Maine Brain Injury & Stroke Resource Directory can be found as a PDF [here](#). We also have hard copies available by calling 800-444-6443.

The [Resources & Support page](#) of our website contains information like a full list of Maine brain injury support groups and information on our NeuroResources Facilitation services, as well as the Maine Brain Injury ID card application and information on the Acquired Brain Injury Advisory Council, among others.

We also put out a monthly e-newsletter that features a Maine brain injury survivor or family story, as well as updates on training and education, advocacy opportunities, support group updates and more. If you would like to receive the newsletter, please reach out to Sarah at [sgaffney@biausa.org](mailto:sgaffney@biausa.org).

Don't hesitate to reach out.
